

URBO-DRYER

URBO-DRYER is a compact 3-stage High Volume Air Pump that produces a large amount of hot, dry and clean air to dry parts for the plating, machine, sheet metal shop or virtually anyone that cleans and dries parts.

URBO-DRYER is engineered to meet the demands of a small or large shop. It is designed to be used in either the portable or stationary mode with our unique Aire-Switch feature that is standard equipment. The Aire-Switch enables the user to operate the **URBO-DRYER** from the trigger-button on the air hose nozzle, allowing the cabinet housing portion of the **URBO-DRYER** to be placed in a remote area, out of the way.

Portable Or Stationary Self-Contained Parts Dryer

EFFICIENTLY REMOVES:

- Solvents, water, and chips with high volume-low pressure, heated and filtered air
The-high speed pump impeller blades heat the air through rotational friction (60° F temperature rise over ambient air in about 3 minutes) no heater elements to replace or maintain.

COST-EFFECTIVELY REPLACES:

- Compressed air that is often contaminated with oil and water.
- Compressed air is also cold and is expensive to produce,
- **URBO-DRYER** draws only 10 amps. of current at 110 volts.
- **URBO-DRYER** is particularly effective on blind holes because it evaporates fluids

ADDITIONAL BENEFITS:

- * Frees-up your compressed air for other operations.
- * Delivers a constant supply of heated (120+° F), high volume (97 cfm), low pressure (6 psi) air.
- * Eliminates-the risk of injury associated with the use of high pressure air.
- * Drying parts using the **URBO-DRYER** is at least 3-5 times faster-saving labor.
- * Minimal system maintenance-a filter every two-three years (\$42.00), no other maintenance required.
- * Small parts are blown off without being blown away due to the low pressure.
- * **URBO-DRYER** draws its air in through a washable bi-fold filter offering 19 square feet of filter media, filtering down to 3 microns.

COMPLETE:

URBO-DRYER comes complete with a 10' flexible light weight air hose. Ready to use right out of the carton, with efficiency and worker safety unparalleled in the shop.

INEXPENSIVE: ONLY \$995.00 Warranty- one year parts & labor Shipping weight 27 lbs
